“**T**his photo story was inspired by a modern, empowered woman,” says hair and makeup artist Tania Crawford, who created the concept for this photo shoot. “She’s confident in her own skin and knows exactly what she wants. She’s not ashamed of the luxury she deserves because she knows her worth. It is a new era for brides who are untraditional, modern, and luxurious. They’re inspired by traditions but have revamped them into something new.”

These glittering looks are perfect for your wedding day or next soiree! ❖
